

# Level 3 Advanced Home Modifications: Functional Applications

## PRESENTERS:

**George Xinos, Access Consultant and Occupational Therapist**  
**Wendy Chandler, Roberts Occupational Therapy**

This is a "hands on" 3 day workshop, held over 2 weeks to allow participants to apply learned content in their own workplace and consolidate learning outcomes.

**Participants must attend all 3 days**

**Week 1: Monday 13<sup>th</sup> October**

**Week 2: Monday 20<sup>th</sup> & Tuesday 21<sup>st</sup> October 2014**

**(8:45am - 4:30pm each day)**

**at The Independent Living Centre      705 Princes Hwy, Brooklyn, VIC**  
**COST: \$880 incl. GST**

### LEVEL 3

- For *health professionals* who wish to further develop skills in a specific area of Assistive Technology (AT)
- To prepare learners to prescribe AT for use with clients with more complex needs
- Participants to become a reference point for other professionals

### Learning Outcomes:

- Increase understanding of DDA, BCA, AS 1428 and their relevance to modifying private residences
- Understand some of the legal implications for therapists and clients
- Increase awareness of possible design faults and develop knowledge and strategies to avoid these
- Gain an understanding of home modification in the context of more specialised areas such as bariatrics, palliative care, environmental control & dementia.
- Opportunity to work through case studies, and to discuss and review ideas and examples of well integrated home modifications
- Gain confidence in communicating recommendations graphically and producing suitable specifications / scopes of work
- Work through examples of complex home modifications
