# Functional Access SOLUTIONS

### The Benefits...

**Enhance** corporate image and reputation.

**Extend** products and services to a broader market.

**Demonstrate** high corporate social responsibility.

**Reduce** legislative risk.

**Assurance** that accurate and current advice has been gained.

**Reduce** costs by identifying and rectifying issues early in the design process.

### Why Functional Access Solutions?

#### Technology uptake & readiness

Ability to participate directly in BIM environments.  
Customised mobile auditing / reporting tools increasing security, accuracy and efficiency.

**Graphical reporting** from 2D and 3D applications, improving cross team communication.

#### Diverse skill base

Extensive experience across a range of sectors and geographies.

A team with diverse qualifications and backgrounds, inclusive of health, building and safety & risk industries.

A focus on **research & evidence** based practice providing assurance that our input is functional, flexible, current and valid.
